Professional Summary

Digital accessibility leader and CPWA-certified specialist with more than 12 years of experience across government, telecommunications, technology, higher education and consulting. Combines WCAG expertise, assistive-technology testing, accessibility architecture, governance, remediation and lived experience to help organizations build inclusive digital services. First blind Omani to earn a science degree.

Core Expertise

Accessibility strategy and governance | WCAG audits | Assistive-technology testing | Accessible UX and requirements | Remediation and verification | Training | Accessible documents | Inclusive technology

Professional Experience

Accessibility Specialist

Ministry of Transport, Communications and Information Technology, Oman | Apr 2025-Present

- Lead and support digital accessibility initiatives for government websites, mobile applications, digital services and documents.
- Evaluate services against WCAG requirements and assistive-technology behavior, document findings and guide remediation priorities.
- Advise stakeholders on accessibility requirements, procurement considerations, governance and sustainable quality practices.
- Deliver awareness, practical guidance and capacity-building support for teams responsible for digital service delivery.

Founder and Accessibility Lead

A11y Oman, an initiative of Noah International | May 2025-Present

- Founded A11y Oman as a specialist accessibility initiative under Noah International to advance accessible digital experiences in Oman and the region.
- Provide accessibility consulting, audits, training, remediation guidance and inclusive-technology strategy for organizations.
- Lead the development of Suchoolah, a digital accessibility platform designed to support accessible testing, reporting and organizational improvement.

Accessibility Architect

Charter Communications LLC, Greenwood Village, Colorado | Dec 2017-Oct 2023

- Defined and validated accessibility requirements for web and mobile experiences and integrated them into agile delivery with product, design, engineering and quality teams.
- Evaluated digital products using WCAG, screen readers and other assistive technologies; documented actionable defects and verified remediation.
- Improved workplace accessibility through tactile navigation, braille labels, accessible exercise equipment guidance and an innovative 3D overlay for touchscreen coffee machines.
- Tested and advised on accessible PDF, Word and Excel documents.

Accessibility UX Designer

Unison Systems Inc., Greenwood Village, Colorado | Oct 2017-Dec 2017

- Created and refined accessibility requirements and translated complex issues into practical solutions for agile teams.

Accessibility Tester

Blind Institute of Technology, Denver, Colorado | Jun 2017-Oct 2017

- Tested software as an assistive-technology user, isolated defects and proposed practical accessibility solutions.
